

Black Is The New Black

NEW BLACK VINYL

INTRODUCING AN ALL-NEW BLACK EXTERIOR FRAME OPTION ON PGT CUSTOM WINDOWS + DOORS VINYL PRODUCTS.

Black exterior frames offer a classic look instantly and lend a dramatic feel to any exterior, allowing greater creative freedom when it comes to design. Whether on impact-resistant WinGuard Vinyl or energy-efficient EnergyVue lines, this in-demand color completes modern and elegant homes beautifully.

- In contrast to white frames, which draw the eye's attention, black frames subtly showcase the window or door's design and size, while providing maximum attention to your view.
- For dramatic exterior finishes, like wood siding or brick, black frames complement without competing for attention.
- Black frames are an in-demand option for modern industrial-style designs.
- New, trend-forward, neutral.

Black is the latest addition to our standard frame colors: white, beige, bronze exterior/white interior, and bronze exterior and interior.

**AVAILABLE TO
ORDER STARTING
JULY 2, 2018.**
